- Govt. of India recognized Export Trading House.

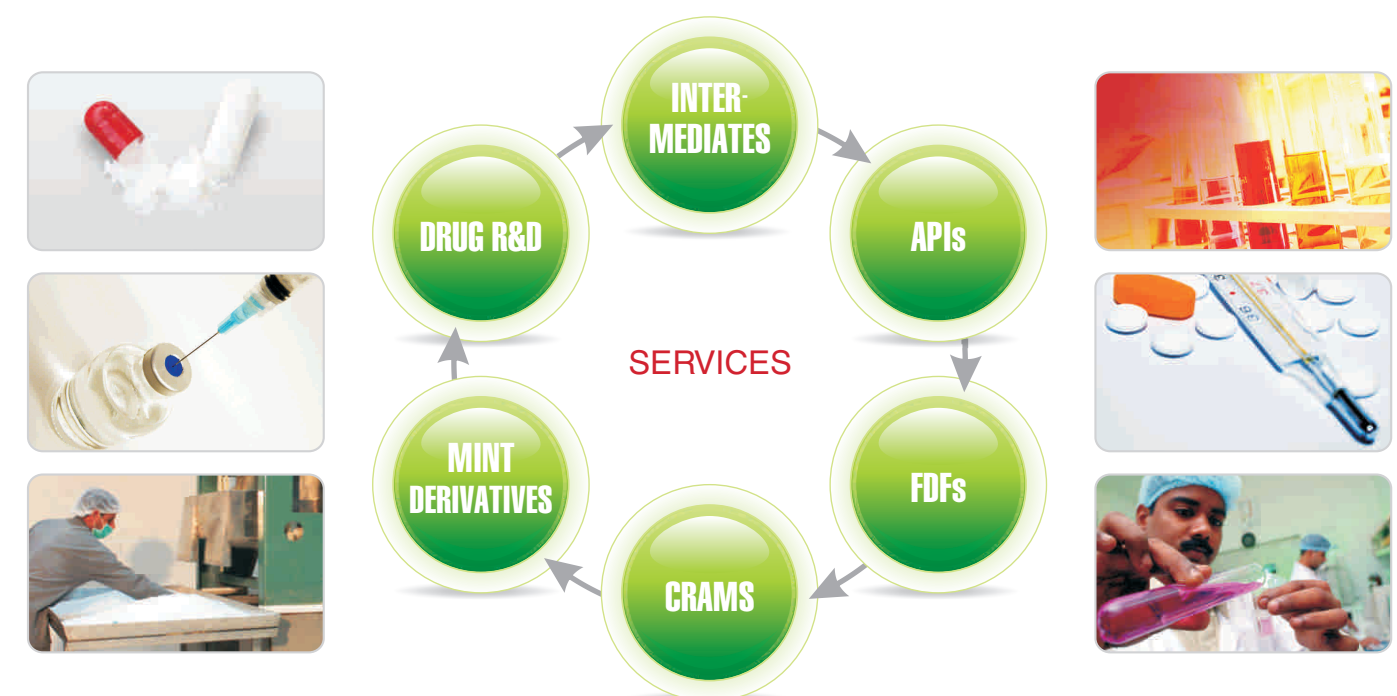

Captive Production Facilities

Stringent Quality Assurance Protocol

State of the Art Infrastructure and Facilities

Large Range of Products

One of the Largest Exporters of Mint Derivatives from India

MINT - PRODUCT RANGE

Mentha Oil

Annual Processing Capacity of 12,000 metric tones.

Menthol from Surya finds applications in various industries ranging from perfumery, cigarettes, liquors, as a hardening agent in chewing gum and number of pharmaceutical formulations. The oil obtained by the relatively simple process of steam distillation belongs to the chemical class of plant product variably returned to as essential, volatile or ethereal oils, whose chemical composition consists entirely of hydrocarbon and oxygenated compounds.

Menthol Crystals

Annual Capacity is 3,600 metric tones.

Menthol crystals from Surya are obtained by fractional distillation of natural mentha oil, crystallisation and subsequently centrifuging to separate out the menthol crystals. Surya offers very high quality terpeneless menthol crystals at very competitive prices.

Menthol Powder

Annual Capacity is 4,500 metric tonnes.

Surya offers menthol powder that is colourless in appearance and has a fresh peppermint odour. At times, crystals are also infused in them to deliver a customized product. The menthol powder finds its applications in pharmaceutical, confectionery and flavouring industry.

Dementolised Peppermint Oil

Annual Capacity is 2,800 metric tonnes.

Surya manufactures high quality Dementolised Peppermint Oil of desired purity. With state-of-the-art infrastructural facilities, Surya has been able to achieve double & triple rectified quality standards that are benchmarks in themselves.

Essential Oils

Surya offers essential oils that are pure and derived using latest technology. These highly concentrated oils are primarily used for therapeutic purposes, aromatherapy and skin treatment. The manufacturing process at Surya enhances the inherent qualities of these oils.

Other Products

- ▶ Natural Mint Terpenes, Cis-3-Hexenol(>98%), Menthones (allgrades), α -pinene, β -pinene, limonene, octanol 3, methyl acetate.
- ▶ Basil oil, Mentha Piperita & Spearmint oils.
